PROFILE

Software engineering is my means to build innovative solutions to solve everyday problems more efficiently. I'm a former Chartered Professional Accountant turned Full Stack Software Engineer, who is passionate about learning new technical skills and utilizing creative problem solving. I strive to meet client demands with innovative solutions through collaborative efforts, utilizing all accessible inputs to create extraordinary outputs.

SKILLS

HTML, CSS, Sass, JavaScript, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM) APIs, Web APIs, User Authentication, OAuth, Heroku, Git, GitHub, Jest

EXPERIENCE

Software Engineering Bootcamp Teaching Assistant | BrainStation

FEB 2023 - MAY 2023, FULL-TIME CONTRACT - REMOTE

- Selected to be a teaching assistant from a cohort of 30 BrainStation graduates to guide and assist future bootcamp sessions.
- Conducted code review and assignment grading, identifying efficiencies and opportunities for improvement through constructive feedback.
- Provided personalized mentorship for students, dissecting and addressing debugging issues through methodical problem solving.

Senior Staff Accountant | Chaggares & Bonhomme CPA

NOV 2020 - NOV 2022, NEWMARKET, ON

- Managed planning and execution of assurance engagements to meet lender and/or government reporting requirements on a timely basis.
- Recommend and implement accounting controls, policies and procedures of profit and not-for-profit entities to improve compliance.
- Performed technical research, developing and documenting advisory recommendations for corporate clients resulting in tax savings.
- Mentored junior staff and instructed in technical training to improve workflow requirements across the firm and engagement turnover time.

Senior Accountant | Deloitte LLP

DEC 2019 - NOV 2020, TORONTO, ON

- Planned and executed assurance engagements with businesses operating on a global scale to meet regulatory requirements and investor demands.
- Documented understandings of business processes and internal controls for creation of technical memos and audit procedures to improve audit flow.
